

HAVE YOU HEARD

About the Regional Interagency Coordinating Council (RICC)?

The Regional Interagency Coordinating Council (RICC) is an essential component of the Part C early intervention system at the local level. It meets to discuss early intervention strategies for the Southwest Louisiana Region.

The group's membership includes family members of children with disabilities, service providers, community leaders, and agency representatives. EarlySteps support supports the development of regional councils as a way to expand the collaborative and coordinated efforts of the Part C system, to develop local leadership, and involve a broad stakeholder community.

All stakeholders including parents of children receiving EarlySteps services, family members, providers, and other early Intervention personnel are encouraged to attend RICC Meetings.
