

# See Things Through Their Eyes: Sensory Integration

Children with Sensory Integration dysfunction have great difficulty figuring out what is going on inside and outside their bodies, and there is no guarantee that the sensory information they are working with is accurate.

For some children, sensory integration does not develop smoothly. The essential first step toward helping your child with sensory issues is to develop empathy for how they experience their world.

## **Guest Speaker:**

Vonda Flue, M.O.T./L.O.T.R

**Friday, July 26, 2019**

**1:00 PM - 3:00 PM**

**At Families Helping Families of SWLA  
2927 Hodges Street  
Lake Charles, LA 70601**
