

COFFEE & CONVERSATION

The Crisis Intervention Team (CIT) is a partnership program joining local law enforcement and mental health practitioners (private & state) together in an effort to provide those individuals in need with an efficient, effective, respectful and compassionate response.

This is accomplished by providing front-line patrol officers with the knowledge and skills necessary to deal appropriately with families and individuals with mental illness, autism or those experiencing an emotional crisis.

Please join us for Coffee an Conversation with:

Officers in our Community
